Highest Education

Level	: Degree	CGPA	: 3.92
Field of Study	: Multimedia Computing	Class	: Bachelor of Science with Honours, Class I

Major : Multimedia Development
Institute / University : YPC International College
Located In : Malaysia

Graduation Date : April `19

Final Year Project (Desc) : Experience a first-person view in a 3D survival horror game that leans towards realism, akin to the cinematic style of horror films. This game minimizes the heads-up display (HUD) to enhance the immersion, bringing players closer to a real-life experience. Our mission is to support individuals who feel uneasy about horror movies, ghosts, and dark spaces. Using methods inspired by psychology, we aim to provide a therapeutic experience, helping players confront and manage their fears. This free-to-play game is available at [SKW Studio](#) or [Not Alone](#). For those interested in the development process, visit our archive of college projects at [SKW Studio Archives](#).

EMPLOYMENT HISTORY

1. **Company Name** : Finexus International Sdn Bhd.

Position Title : System Analyst

Position Level : Senior Level

Specialization : IT Software

Industry : E-Money Industry

Date Joined : Jan 2022

Date Left : Present

Work Description : For more details, please kindly refer to the achievements section.

As a System Analyst at FINEXUS International Sdn Bhd, my role predominantly focuses on management and design aspects. Development and support activities are less frequent, becoming a priority mainly in situations where resources are limited. My primary responsibilities include leading the team, which entails monitoring performance, guiding and mentoring team members, and planning tasks to ensure efficient workflow and team support.

On the design side, I am responsible for facilitating discussions with both users and internal to address and mitigate any potential issues with our solutions. Moreover, I take the lead in designing systems that fulfill specific user requirements, ensuring our outputs are both effective and efficient.

Additionally, I play a role in the conceptualization and execution of proof-of-concept projects as an assistant project manager. This involves preparing and presenting proposals that help the company secure bids and win new clients, expanding our business reach and strengthening our market position.

2. **Company Name** : Finexus International Sdn Bhd.

Position Title : Software Analyst

Position Level : Entry Level

Specialization : IT Software

Industry : E-Money Industry

Date Joined : Jan 2020

Date Left : Present

Work Description :

As a Software Analyst at FINEXUS International Sdn Bhd, my primary responsibilities include designing solutions to meet user requirements. Furthermore, I am involved in developing modifications as needed and troubleshooting any arising issues. In addition, I serve as a lead for junior team members, guiding and monitoring their progress to ensure successful project outcomes

3. **Company Name** : Finexus International Sdn Bhd.

Position Title : Software Engineer

Position Level : Fresh/Entry Level

Specialization : IT Software

Industry : E-Money Industry

Date Joined : Jan 2019

Date Left : Present

Work Description :

As a Software Engineer at FINEXUS International Sdn Bhd, my primary responsibilities include major enhancements of new system features based on user requirements. This role also encompasses identifying, fixing, and refining existing bugs within the program. Additionally, I provide support for production issues to ensure smooth operation of system batch processes.

4. **Company Name** : Finexus International Sdn Bhd.

Position Title : Software Engineer

Position Level : Intern

Specialization : IT Software

Industry : E-Money Industry

Date Joined : Sept 2018

Date Left : Present

Work Description :

As an Intern - Software Engineer at FINEXUS International Sdn Bhd, my primary duties focus on resolving existing bugs in the program. Additionally, I am involved in modifying and enhancing report features to better serve the needs of end users, including those in Accounting, Business Operations, and Compliance.

ADDITIONAL INFORMATION

EDUCATION BACKGROUND

2014 - 2019	: YPC International College. Bachelor Of Science (Multimedia Computing). CGPA: 3.92 Bachelor of Science with Honours, Class I
2008 - 2013	: Sekolah Menengah Kebangsaan Cheras, Selangor. Sijil Pelajaran Malaysia (SPM) Mathematics – A Prinsip Perakaunan – A Science – A

ACHIEVEMENT

2022 - 2023	: FINEXUS International Sdn Bhd New Network Architecture As the Technical Lead in the newly established Information Security Unit, I spearheaded the development of an entirely new network architecture aimed at achieving certification with ISO/IEC 27001. My accomplishments include designing the network and security flow, implementing the entire network infrastructure from the ground up, and guiding and monitoring team members throughout the process. Successfully setting up the entire network architecture within the designated timeframe was a pivotal achievement that enabled the company to attract a new category of clients.
2023 June	: FINEXUS International Sdn Bhd Achieved the first ISO/IEC 27001 certificate (IAAS,PAAS,SAAS) As a key member of the ISMS community and the primary handler of the ISO/IEC

27001 Lead Implementer role, I successfully guided the company to achieve its first ISO/IEC 27001 certification. This accomplishment has enabled the company to attract a new category of clients. In my capacity as Lead Implementer, my responsibilities included preparing policies and procedures, engaging in discussions with the community to refine these policies, implementing them, maintaining records, and conducting interviews with auditors.

2023 June : FINTANI SERVICES SDN. BHD
Achieved the first ISO/IEC 27001 certificate (SAAS – E-money lending)

As a key member of the ISMS community and the primary handler of the ISO/IEC 27001 Lead Implementer role, I successfully guided the company to achieve its first ISO/IEC 27001 certification. This accomplishment has enabled the company to attract a new category of clients. In my capacity as Lead Implementer, my responsibilities included preparing policies and procedures, engaging in discussions with the community to refine these policies, implementing them, maintaining records, and conducting interviews with auditors.

2023 June : FINTANI SERVICES SDN. BHD
Achieved the KPKT (Malaysia) certificate (SAAS – E-money lending)

As a key member and the principal individual responsible for the Information Security Unit, serving the e-money lending project, I successfully collaborated with the company to extend the license (KPKT). My role was instrumental in ensuring that our security practices met the stringent requirements necessary for license renewal, thereby contributing significantly to the project's ongoing success and compliance
